

Training

Dade Moeller can provide a full range of Health and Safety training. In particular we provide training on Chemical Management, Hazard Communication, Pesticides, Confined Spaces, First Aid/CPR/AED and Lock Out/Tag Out.

Noise Surveys and Employee Monitoring

Dade Moeller can perform field noise measurements and provide noise monitoring for exposed employees to ensure that your hearing conservation program is meeting the standards.

Key Staff

Stephen L. Bump, CHP, CIH, PMP

Mr. Bump has over 35 years of health and safety experience and is dedicated to finding ways to getting work done while ensuring workers and the environment are protected.

Dalene Zabel, CIH

Ms. Zabel has over 30 years of industrial hygiene and health and safety experience. She is customer oriented and dedicated to finding cost-effective solutions to problems.

Ed Marchand, PhD

Dr. Marchand has 30 years of health and safety experience. He is detail oriented and works with management and workers to find the best solution.

Health and Safety Assessments

Dade Moeller can tailor an assessment to fit your needs. We have experienced safety and health professionals to review your program in-depth.

Safety & Health Program Review and Development

Dade Moeller can help you improve your existing safety and health program or help you to develop a new one.

We are experienced in hazard assessments. We can help you by providing an independent assessment of your operations to ensure compliance with safety and health regulations. Dade Moeller can also help you develop and update your company program.

Safety Culture

Dade Moeller's industrial hygienists, and safety professionals have first-hand knowledge of what it takes to establish and maintain a strong safety culture at a range of commercial, and government nuclear and non-nuclear facilities. We evaluate current safety cultures, recommend areas for improvement, and provide training for supervisors and workers.

Expertise:

- Self-assessment tools and recommendations
- On-site assessments
- Employee surveys
- Training
- Program development
- Mentoring and consulting

With Dade Moeller, worker protection is achieved

Worker protection is achieved through:

- Integrity
- Technical competence
