RE: NOTICE OF OWNERSHIP CHANGE AND EXPANDED CAPABILITIES

Dear Sir or Madam:

We are happy to share with you the news that there has been a change in ownership of Dade Moeller. On May 16, 2016, NV5 Global, Inc. (“NV5”) acquired 100% of the capital shares of Dade Moeller. As a result, Dade Moeller is now a wholly owned subsidiary of NV5. We will continue to operate under our original charter of incorporation, company identity, tax identification number, DUNS number, and other identifiers.

Based on our 22-year reputation for excellence in radiation protection and occupational safety, NV5 has chosen Dade Moeller as its “platform organization” for environmental safety and health. With unchanging commitment to integrity and client service, we will continue to offer the expertise you have come to know us for:

- Radiation Protection
- NORM/TENORM
- Licensing and Permitting
- Industrial Hygiene
- Occupational Safety
- Laboratory Auditing
- NEPA/Environmental Assessment
- Environmental Data Quality
- Training

Joining NV5 also means that we now offer you a wider range of complementary capabilities in NV5’s five primary service areas, namely:

- Environmental
- Infrastructure
- Construction Quality Assurance
- Energy
- Program Management

With about 1,500 employees at 58 offices throughout the United States, our combined Dade Moeller/NV5 resources can bring effective solutions to your challenges. If you have a need or an upcoming project, no matter how big or small, there is a high likelihood that we can help.

We encourage you to review the enclosed background information on Dade Moeller and NV5, and to visit us online at www.dademoeller.com. Please also feel free to contact me directly at 865-414-5550 or bill.stanley@dademoeller.com. We look forward to introducing you to our expanded capabilities and working with you in the future.

Sincerely,

Bill Stanley
Manager, Business Development
