

January 11, 2017

Dear HPS Colleague:

We are writing to ensure our HPS colleagues are aware that there has been a change in our ownership. We kindly ask that you share this information with your HPS Sections and Chapters.

In May 2016, NV5 Global, Inc. (“NV5”) acquired Dade Moeller. NV5 is a leading provider of professional and technical engineering and consulting solutions based in Hollywood, Florida. We were sought out by NV5 in part for our reputation and experience in the fields of health physics, safety, and environmental restoration, and we are serving as the company’s platform organization of its ES&H business line.

We are currently referring to ourselves as “Dade Moeller, an NV5 Company,” but, at some point in 2017, we anticipate shifting to just “NV5.” We understand that, after 22 years of being known as Dade Moeller within the health physics community, this change may take some getting used to. We will ease the transition throughout the year, for example by making both names apparent at our booths at Mid-Year and Annual Meetings.

It is important to us that, when you see the name “NV5” in the future, you know that it is still us – your fellow health physicists. Under the NV5 name, we will still:

- Be an affiliate of the Health Physics Society and support our staff who wish to serve on HPS Boards and Committees
- Mentor, train, recruit, and employ health physicists and related professionals
- Provide health physics consulting and technical support to clients nationwide
- Maintain our major office locations in Richland, Washington, and Cincinnati, Ohio

Joining NV5 also means that we now offer a wider range of complementary capabilities relevant to health physicists, such as energy performance, environmental engineering, and community relations and outreach. We also have an expanded footprint through NV5’s 65 offices.

We encourage you to learn more about our new NV5 family at www.nv5.com/dade-moeller-is-now-NV5 or by subscribing to our mailing list through the form at www.dademoeller.com. If you are attending the Mid-Year and/or Annual Meetings, we hope you will stop by our booth (look for the NV5 name!) so we can catch up. Our HPS friendships have meant so much to us over the decades, and we look forward to continuing them under our NV5 name.

Sincerely,

Bill Stanley, Vice President Business Development
